# Pre Fabrication & Modular

## Standard Frames

Each trapeze can be supplied to the clients specific requirements, ensuring that every job is met with accurate and ready to install modules. Specific dimensions on the size of channel used and the diameter of the threaded rod can be specified to Unistrut upon enquiry.

Atkore Unistrut's H-Frames can be supplied in two system configurations, welded or bolted, to allow for flexibility when ordering the product.

## Bespoke Frames

Atkore Unistrut are also able to populate our 2D and 3D modules with a number of services from our range of electrical raceway products.

This includes our cable ladder, cable tray, cable trunking and Atkore Marco wire basket tray. These products are all installed in the modules before shipping and secured in place using a range of Atkore Unistrut fittings and accessories.

Quality assurance is integral to the manufacture of each module, with each being thoroughly checked prior to delivery, ensuring each unit is fully compliant with relevant standards and specifications.

In an effort to expand and consolidate our service delivery, Atkore Marco offer bespoke trunking solutions as part of our Pre-Fabricated and modular services.

A wide range of uPVC trunking products are available, in a number of sizes to suit any application.

Each assembly is supplied as a complete unit, and feature all of Atkore Marco’s signature product benefits, including pre-punched knock-outs on the trunking base, and necessary cable segregation throughout.

Whenever possible, Atkore Marco is always looking for new ways to make our products and services as fast and as cost effective as possible, and our pre-assembled uPVC units are just one time saving solution we have on offer.

**Education**

Marco’s pre-assembled trunking systems are the perfect solution for projects all the way up the education sector, from new build modular classroom’s up to University

**Hygieia**

Marco’s pre-assembled units are also available with anti-microbial protection, helping defend against 99.9% of harmful

**Healthcare**

Prefabricated units are also a great solution for multiple specifications within the healthcare sector, these can include hospital wards to rooms in residential care

**Time Saver**

Our pre-assembled units are primarily designed to save time, cost and reduce excess waste. Each unit is supplied complete and ready to install.

**Portable Modular Buildings**

Pre-assembled uPVC units are also an ideal solution for housing power and data cables within modular buildings, allowing for flexibility in the buildings design.

**Sustainability**

Pre-assembly ensures that no product ends up as excess waste on site due to each length being supplied bespoke to the exact measurements and design

**Prefabricated Bench**

Atkore Marco are also able to supply our bench trunking in prefabricated units. Along with the bench units, Marco can manufacture bespoke lengths of bench trunking to suit any installation requirement.
